POLICY

This facility will coordinate off-site health service for residents who cannot or choose not to self-manage their health services. During this process the following will occur so that the facility is aware of and can help manage care needs:

PROCEDURES

a. This facility will assist our residents by coordinating appointments with outside providers that are necessary to support the residents' health needs.
b. Transportation for medical purposes will be arranged by this facility.
c. Following a resident's visit to an outside medical provider, if information is obtained from said provider, it will be included in the resident's record. Adjustments to the resident's services and service plan will be made as applicable.
d. This facility will provide relevant information to the off-site provider and will have a protocol to facilitate the receipt of information from the provider.
e. This facility is exempt from the coordination of outside health services for residents who are capable and choose to independently arrange and manage their health care needs.
