A family caring for a loved one suffering from dementia may experience complex emotional, physical, and organizational challenges. At Moran Vista, we provide the warmth of family, the comforts of home, and a setting that is both stimulating and secure.

Our accommodations are designed to welcome and soothe.

Each Moran Vista suite is decorated with warm colors and comfortable furnishings. In addition, we offer a private bath, generous closet space, and room for the kinds of mementos and heirlooms that foster a sense of connection, both to the past and present.

Residents of our Alzheimer’s/Dementia Care Program enjoy a quality of life that includes:

- Three delicious and nutritious meals served daily in an attractive dining room.
- Full calendar of social activities and outing events, specifically designed to engage and satisfy those with cognitive impairments.
- Secure courtyard, where sun, fresh air, and the sights and sounds of nature offer powerful therapies.
Cognitive and Physical Support
Families and residents will appreciate the caring supervision of our dedicated in-house staff. Our licensed nurses are available 24 hours, seven days a week. They offer the guidance for personal safety, community involvement, and management of medical needs – prescription drugs, diabetes care, incontinence issues and more. We are committed to providing sensitive care for persons with Alzheimer’s or dementia. We provide advanced secure nursing care with the same respect and sensitivity as a family member.

We invite you to join us for a no-obligation tour and very fine meal — compliments of Moran Vista, to see for yourself.

Please call us today at (509) 443-1944.
