ADDENDUM G

Smoking Policy

Policy

This community allows the use of tobacco products by residents. Smoking is permitted outside the building only, in designated smoking areas. Residents will abide with the following guidelines:

1. Tobacco products of any kind may be used at any time in the designated areas outside the facility.
2. Residents may not smoke in their own apartment or patio or balconies.
3. Should the residents smoking habits become a threat to the safety of themselves, other residents, staff or Community, the Executive Director has the right to disallow the resident from smoking.
4. Staff members are not permitted to smoke in a resident's apartment, or in resident-designated smoking areas.
5. The Executive Director, in the best interest of the Community, has the right to refuse anyone from smoking in the community.

Use of Electronic Smoking Devices (E-Cigarettes)

1. Electronic smoking devices (also known as e-cigarettes, e-pens, e-hookahs, vape-pipes, vape-pens, vaporizers) like any other tobacco products may only be used outside the building only, in a designated smoking area.
2. Users of e-cigarettes are responsible for knowing and following the manufacturer’s instructions on using the device. This includes charging the device and/or using correct batteries for the device.
3. If storing e-cigarettes in their apartment, residents shall make sure that the device and solution is stored in a safe place, away from food or anyone who could potentially drink the liquid.
4. Should the residents’ use of e-cigarettes become a threat to the safety of themselves, other residents, staff or Community, the Executive Director has the right to disallow the resident from using and storing e-cigarettes. This includes improper storage of the device and solution, improper charging of the device that could be a fire hazard and using e-cigarettes outside of the designated smoking area.

I have read and understand the Smoking Policy listed above, and agree to its terms and conditions.
