A complete and thorough job hazard assessment has been conducted for all current job positions and duties performed in this community. Where hazards are present, appropriate procedures, training, and personal protective equipment necessary to safely carry out job responsibilities, will be provided. The community will provide, at no cost to the employee, the necessary Personal Protective Equipment necessary to safely carry out hazardous tasks of each job position. The community will also provide PPE training to each employee, on the following topics:

- When PPE is necessary (task performed)
- What PPE is necessary
- How to properly apply, adjust, and remove PPE
- The limitations of PPE
- The proper care, maintenance, useful life, and proper disposal of PPE
- Hazard Type
- Hazard Source
- Body parts at risk
- Severity

The community will perform additional or on-going training when circumstances present, such as:

- Change in workplace policy/procedure
- Change in types of PPE used
- Employee demonstrates incorrect use or knowledge of PPE
