Near Miss Report

Have you observed something that is a potential safety hazard? Did you have a near miss with disaster?

Please let the Safety Committee know!

Our names are listed on the Safety Committee Bulletin Board in the Staff Lunch/Break Room. Give this form to a member or leave it at the front desk and we will get it. By reporting a near miss or a safety hazard you have observed, we can fix it before someone gets hurt!

What I observed (include room # if applicable):

__________________________________________________________________________________

__________________________________________________________________________________

__________________________________________________________________________________

__________________________________________________________________________________

What I think can be done about it:

__________________________________________________________________________________

__________________________________________________________________________________

__________________________________________________________________________________
